BUILDING IS BOOMING IN TORRANCE...

a personal message from C. N. Cake

We are proud to be a part of the fantastic growth in West Torrance. . . . Our program is designed for a balanced community of shopping centers, apartment houses, etc. . . . Our confidence in Torrance has been expressed with the investment of millions of dollars in land, buildings and business enterprises

We wish to thank our city officials and Chamber of Commerce for giving us the feeling of being a member of a team whose goal is to make Torrance one of Southern California's greatest cities.

Our activity in Torrance is just beginning . . . the future is unlimited.
